

DREAM 6

RIB'S
FIBERGLASS HULL

The **DREAM 6** is a comfortable family boat specially designed for sailers. The modern marauding look and deep V hull offer a better sailing sensations and ideal stability and maneuverability.

The interior design has been studied to offer maximum comfort and safety on board, with optimized storage and seating areas.

On the **DREAM 6**, the rear platforms make it easier to get on and off the boat and increase circulation space. The tilting console is protected by a wraparound windshield, for better driving comfort. The deck can be transformed into a sundeck for relaxation. The picnic table is retractable and a shower kit is available on board. The **DREAM 6** has many storage solutions: back and front lockers, under the Bolster seat, and even in the cargo area, which allows for the storage of bulky equipment.

The tubes are available in heat-welded Valmex® PVC from the German company Melher or in HYPALON ORCA® fabric from the company Pennel et Flipo.
