

# SURF RESCUE 400

**FOLDABLE BOAT  
INFLATABLE FLOOR**

The **SURF RESCUE 400** is a lightweight, inflatable, foldable boat.

It can be deployed very quickly and thus offers a fast response to an emergency situation for rescue professionals.

The design of the **SURF RESCUE 400** and its inflatable keel make it extremely maneuverable and stable, it can easily deal with rough seas, and has a large load capacity for a boat of its size.

Its practicality is also proven by its large handles strategically positioned to facilitate transport, the front cover that offers additional storage capacity sheltered from the water, as well as its safe-line that runs along the tubes to secure the passengers on board.

The tubes are available in PVC Valmex® from the German company Melher or in HYPALON ORCA® fabric from the company Pennel et Flipo.

## SPECIFICATIONS

Full length	4.00 m
Full length	2.70 m
Width	1.70 m
Interior width	0.80 m
Depth	0.76 m
Tube diameter	45 cm
Air chambers	6
Weight	70 kg
Tube inflation pressure	0.25 bar
Gonflage plancher	0.80 bar
Passengers	6
Maximum load weight	727 kg
Maximum power	40 HP
Engine shaft	Simple S
Design category	C
