

PATROL 860

RIB'S
FIBERGLASS HULL

The biggest boat of the range, the **PATROL 860** is an «on demand» RIB for all sailing programs.

The high-performance hull of the boat gives it an exceptional passage at sea. The Patrol's deep-V composite hull, wide chines and large diameter tubes, provide excellent maneuverability and stability on the water, resulting in unparalleled onboard safety. The **PATROL 860** is a fully modular boat, you can choose to position all the optional equipment (Console, Bolster Seat, Bench...) wherever you want. This modularity makes it possible to meet the needs of both professionals (firefighters, coastguards) and individuals (Pleaseure and fishing).

The boat is available in PVC Melher or in HYPALON ORCA® fabric from the Belgian company, Pennel and Flipo.

The **PATROL 860** is available in a 12-passenger NUC-certified commercial version, and is available in division 222.
